Dear Elder Figuhr:

Thank you for your letter of November 6.

We would be grateful if you would let us see the reports of all five of the brethren who gave study to our recent Resume.

Inasmuch as we gave painstaking and careful work to our research and our abbreviated document written at your request, we are desirous of giving very careful study to the comments of these brethren.

We are praying for light and understanding. We would like to have all the help our brethren have given in their study.

With kind regards, we are

Sincerely yours,

R. J. Wieland
